EDUCATION

National University of La Matanza
Web Development Technician
2022 – 2024

Colegio San José
High School Diploma, Economics
2016 – 2021

LANGUAGES

Spanish: native
English: advanced / C2

ADDITIONAL STACK

Java, Spring Boot, C#, .NET, PHP, SQL Server, Neo4j, Knex, Objection.js, SendGrid, Sentry, Jest and Playwright.

EXPERIENCE

FlyDevs · Backend / Full-stack DeveloperJan 2024 – Present

- Build APIs, web and mobile applications, backoffices, browser extensions and serverless services.
- Design and integrate AI, payments, storage, email, notifications, authentication and document-processing workflows.
- Maintain and evolve products using SQL/NoSQL databases, AWS infrastructure, observability, testing and data migrations.

PROJECTS AT FLYDEVs

Hired ATS
Recruiting platform with a NestJS API, Next.js frontend, calendars, reporting and AI-assisted CV processing.

Zapienz
NestJS learning and parental-control backend with authentication, moderation, notifications, analytics and AI.

Gong Migration Suite
Zoom, Clari and Salesloft ETL for recordings and transcripts, S3 processing and live monitoring.

OneVok
Assessments, PDF reports, PWA and payments using Next.js, Node.js, MySQL, AWS and Stripe.

Modamily
Social platform, matching, messaging and subscriptions with React, GraphQL, Redis and Socket.IO.

Black Doctor Directory
Directory API, authentication, uploads, SQL, S3 and SendGrid.

Apyme
Institutional website and content platform using Next.js, TypeScript and MongoDB.

Hired Chrome Extension
LinkedIn profile capture and candidate integration using React, Vite and Chrome APIs.

Energia
Contracts, film catalog, rights, revenue, payment reconciliation and reporting.

FlyDevs Intranet
Internal administration built with React, Node.js, Express, SQL and AWS.

Mission Invest
Investment administration with Next.js, NestJS, Prisma, PostgreSQL, Stripe and Sentry.

Milloton
Lottery API and scratch-card system using Node.js, Express, MongoDB and AWS.

Orchid Security
TypeScript serverless backend using AWS Lambda, Sequelize, PostgreSQL and Zod.

SELECTED PERSONAL PROJECTS

Dragones & Principiantes
D&D mobile app using React Native, Expo, Express and MongoDB.
App · Backend

PDF Chatbot
Document chat built with Next.js, NestJS, Socket.IO, Gemini and Groq.
Frontend · Backend

Batallas Pokémon
Full-stack game using Next.js, NestJS, PostgreSQL and WebSockets.
Frontend · API
